

DOUBLE EMISSION ARCHITECTURAL PROFILE'S ACCESSORY

Typology

Linear architectural profile configurable in direct, indirect emission or both, for high levels of light emission.

Features

The direct emission is configurable with the use of 1 to 4 strips; indirect emission foresees two strips.
Compartment inside the profile suitable for the insertion of the power supply and dimmer.
Possibility of on/off switching and dimming separate for direct and indirect lighting.

Installation

Mounting on ceiling for unidirectional or suspended for unidirectional or double emission.

Accessories

The aluminium profile is completed, depending on the application chosen, with screens (flat front and rear pair of screens for indirect emission), side closure caps and suspension kit.

For ceiling mounting the rear support is required, code PRDES0-SL, on which the profile can be attached.
