

-15°C
+35°C

DECORATIVE SUSPENSION PROFILES: P09B

Features

Surface or suspension installation profile.
Square diffuser that extrudes two cm from the profile.
The dimensions of the profile, 5 x 5.5 cm, and the 180° beam opening, allows for this profile to be installed anywhere whilst responding to many needs using the same aesthetic element.

CAN BE USED WITH LED STRIPS WITH MAXIMUM WIDTH:
40 mm

MAXIMUM POWER:
40W/m

Installation

Surface or suspension installation.
The profile housing allows for some drivers to be inserted: always check dimensions and electrical loads.

Material

6063 aluminium profile with white polycarbonate screen.

Accessories

Every 3 metre bar is complete with 3 sets of end caps (without hole) 3 sets of mounting brackets (necessary for surface and suspension installation) and 3 sets of suspension cables.

Packaging

Supplied in packaging of 1 bars of 3 meters complete with screen and accessories.
Spare accessories for additional cutting available with a separate code.

Notes

Thanks to the possibility of using different strips the profile becomes a fixture that can provide different light temperatures, to be used depending on the activities carried out in that space at different times during the day.

Dimensional characteristics
